### OSPEDALE S. ANTONIO

Department of Gastroenterological  
and Surgical Sciences 3rd General Surgery Clinic,  
Coloproctological Unit,  
S. Antonio Hospital, University of Padova  
Via Facciolati n. 71, 35127 Padova, Italy

Up to now surgery of hemorrhoids was made by the employment of few surgical instruments and deep anatomical knowledge.

Nowadays new technologies and the introduction of new devices in surgery have completely revolutionized surgical technique for pelvic alterations and hemorrhoids with a great benefit for patient as far as post-operative pain, surgical complication and time of rehabilitation.

Nonetheless a good surgeon must always keep in mind anatomical knowledge and past surgical techniques for hemorrhoids in order to treat eventual complications.

The purpose of the training course is to freshen up anatomy and fisiopathology of the pelvic floor and hemorrhoids and to provide essential principles of new devices utilizations in pelvic surgery also to prevent and treat eventual complications.

*Dr. Sarzo Giacomo*

## *programme*

- 13.00 h **Welcome UCP Padova**  
*Merigliano S.*
- 13.15 h **Haemorrhoids:**  
Anatomy – Function  
**Haemorrhoidal disease:**  
Symptoms – Classification – Internal/external symptoms – Prolapsus grade  
*Cadrobbi R.*
- 13.30 h **Principles of Electrosurgery.**  
**Ligasure device**  
Principles – The instruments – Use guidance  
*Sarzo G.*
- 14.00 h **Therapeutic options (indications).**  
Surgical – Closed/open haemorrhoidectomy  
– Miscellaneous – Arterial ligation TDH  
– Prolasectomy with stapler – Band ligation / sclerotherapy  
*Merigliano S.*
- 14.15 h **Ligasure haemorrhoidectomy:**  
Pre-op measures – Post-op care – Tips and tricks – Operative exposure – Local injection  
Haemostasis – Bleeding – Management of complications – Pain: Oedematous external component – Skin tags – Big prolapse  
– Bleeding haemorrhoids – Constipation  
– Urinary retention – Stenosis – Delayed healing – Recurrence – Incontinence  
post-op care  
*Sarzo G.*
- 14.30 h **Ligasure haemorrhoidectomy live surgery**  
*Merigliano S., Sarzo G.*
- 19.00 h **CME questionnaire**  
*Merigliano S.*
